CAREER OBJECTIVE: To secure a challenging Front-End Developer role in a dynamic and innovative environment where I can utilize my expertise in JavaScript, TypeScript React, Next.js and REST API to create exceptional user experiences and contribute to the success of the team.

SKILLS:

- **JavaScript | TypeScript | React | Redux | TailwindCss | Git | NextJs | REST API**

EDUCATION:

Bachelor of Science
Lagos State University, Nigeria | 2014 – 2018

EXPERIENCE:
Amoloye
Intern Front-end developer
Duration: July 2020 – November 2021
- Learned JavaScript, CSS Grid and Flexbox under the guidance of experienced developers.
- Translated UI designs into clean, detailed and reusable code.
- Implemented mobile-responsive designs.

Greyhat CyberSolutions:
Front-end Developer
Duration: January 2022 – September 2023
- Debugged components and routes to ensure smooth user onboarding experiences.
- Consumed API endpoints to display websites vulnerabilities and security conditions.
- Created a landing page to showcase the company's products and services.

Payslice HQ:
Front-end Developer
Freelance
- Developed a captivating landing page for a new financial product.
- Played a key role in debugging several web pages, addressing performance issues and resolving compatibility challenges.

PERSONAL PROJECTS:

- **BetterLyf:** A clinic booking app built with Next.js and Supabase. It allows patients to book appointments with specialists.
- **BetterLyf Admin Panel:** A React-based dashboard where admins manage the platform. It connects to Supabase for database operations and authentication.
- **Trendies Store:** An E-commerce store that showcases different categories of products with consumer ratings, price, persistent cart functionality and a payment gateway integration.
- **IP Address Tracker:** A tracker for user's IP Address, Current Location and ISP provider. Also displays user's location on a Map based on IP Address.
